Ice Boats:

For this activity you will need a plastic cup, a bendable straw, tape, paper, scissors, and a hole punch. First, bend your straw into an 'L' shape and tape the short end to the bottom of the inside of your cup. (You might need to trim the straw to make it fit properly.) Next, fill the cup with water and let it freeze for a few hours. After it has frozen, run water on the outside of the cup to loosen the ice. Finally, cut a sail from construction paper and use a hole punch to make two holes for the straw. Ahoy Matey!
